## SKILLS

- **Core Technologies** - Java (8), J2EE, Spring, Hibernate, Struts2, Spring Boot, Microservices, RESTful APIs
- **Databases** - Oracle, PostgreSQL, MySQL, MongoDB, SQL, PLSQL, Redis, Memcached
- **Development and Testing** - Eclipse, NetBeans, IntelliJ, GIT, SVN, BitBucket, JUnit, Mockito, Log4j, SL4J
- **DevOps and Tools** - AWS (EC2, S3, Lambda), Docker, Kubernetes, Jenkins (CI/CD), Maven (3.6+), Gradle, Apache Tomcat, WebLogic (19c/12c)
- **Web Technologies** - JavaScript, HTML5, CSS, XML, ReactJs, Redux
- **Other** - OOPs, Collections, Multithreading, DSA, Design Patterns, Agile, V-model, RAD, Waterfall, Postman, Swagger, Grafana, Prometheus, Loki, Promtail, Kafka, MQTT, Razorpay and Stripe Payment Gateway.

## EXPERIENCE

### Extended Web AppTech Pvt Ltd

Hyderabad, IN

*Junior Software Engineer*

*Jun 2023 - Present*

- Engineered and optimized backend systems, leading to a 30% improvement in overall system performance and a 25% increase in database query efficiency.
- Played a key role in developing and maintaining microservices architecture, which enhanced application scalability by 40% and streamlined data retrieval processes by 35%.
- Successfully reduced messaging latency by 20% through effective integration of messaging protocols, contributing to faster and more reliable communication between services.
- Spearheaded the implementation of CI/CD pipelines, resulting in a 40% increase in deployment efficiency and a significant reduction in post-deployment issues.
- Ensured the robustness and reliability of applications through comprehensive unit and integration testing, decreasing post-deployment bugs by 15%.

### ExpertIT Data Informatics LLP

Pune, IN

*Java Developer*

*May 2021 - Apr 2023*

- Developed and optimized backend systems using Java, Spring Boot, and Hibernate, enhancing application performance and scalability.
- Worked on an e-commerce platform, integrating IoT devices with ERP systems to automate processes and enhance data flow, which deepened my understanding of system integration.
- Collaborated with cross-functional teams, including frontend developers, DevOps engineers, and product managers, to deliver comprehensive solutions and improve the overall user experience.
- Mentored junior developers, fostering a culture of continuous learning and knowledge sharing within the team.

## EDUCATION

### Shri Gulabrao Deokar College of Engineering, Jalgaon

*Bachelor in Mechanical Engineering*

*Sep 2019 - Jul 2022*

- Affiliated with North Maharashtra University
- CGPA: 8.17

### Sathya Technologies

*Java Full Stack Development Course*

*2023*

- Completed a comprehensive course in Java Full Stack Development, covering Java, Spring Boot, front-end technologies, and database management.

## PROJECTS

- **Bus Booking System:** Designed a ticket booking system with real-time tracking and secure payments, boosting customer satisfaction by 40%.
- **Really.sg:** Contributed to a global solution for real estate project management at Really.sg, simplifying and automating processes for landlords, tenants, property managers, and vendors.
- **E-Commerce Microservices:** Created a microservices architecture with RESTful APIs for an e-commerce platform, including modules for login, product management, order management, and admin functionalities.
